Dear kickboxers, guests of our country and all fans of martial arts!

In recent years, Russian athletes, including kickboxers, have faced infringement of their rights and exclusion from international competitions. We understand the value of global competition and strive to create opportunities for the realization of the potential of young athletes not only within the framework of Russian competitions, but also by holding high-quality international tournaments on the territory of the Russian Federation.

We do not turn away from the world community, but, on the contrary, extend a hand to it. We extend a hand to all friendly countries that are ready to compete without signs and manifestations of discrimination. We extend a hand of friendship and solidarity to them. It is for this reason that the Russian Kickboxing Federation initiated the inclusion of the Kickboxing World Cup in the program of the II World Games of National Martial Arts. We are proud that together with our partners we will hold such a significant tournament, where young talents will be able to prove themselves in competitions with the strongest.

I wish all participants of the World Cup worthy competition with peers from different countries. Let everyone find new friends and gain invaluable experience!

The future of our sport starts right here and now!

Batu Khasikov,

Head of the Republic of Kalmykia,

Chairman of the Supreme Supervisory

Council of the Russian Kickboxing Federation

As the President of the World Amateur Kickboxing Association (WPKA), I would like to congratulate you on this event — the XI World Cup Diamond, which will be held in the city of Cheboksary!

It is nice to see the high-quality organization of the competition, an impressive number of good fighters and great interest in kickboxing in the Russian Federation. Russian athletes are very strong, especially in ring styles. I wish you a successful Cup this year and many good fights!

All the best!

George Toktaridis,
President of the WPKA

ABOUT CHEBOKSARY

Cheboksary is a city in the Russian Federation, the capital of Chuvashia and a major port on the Volga River, located in the Volga Upland region on the shore of the Cheboksary Reservoir. Its area is 250.9 square kilometers (96.9 square miles). The satellite town of Novocheboksarsk is about 6 kilometers (3.73 miles) to the east.

Cheboksary has many attractions, including cultural ones: for example, the Russian Drama Theater «Public Order (Badge of Honor)», the Philharmonic Orchestra, the Chuvash State Puppet Theater and other theaters, where performances are given in both Russian and Chuvash. Popular recreation areas for residents are the water-architectural complex (Zaliv) in the center, as well as the embankments and beaches along the Volga, where you can swim in the summer. In addition, the city has several heated swimming pools, health clubs and museums, including the national museum of the republic and the only beer museum in Russia. There are also historical buildings from the 16th-18th centuries: the Vvedensky Cathedral, monasteries, churches, buildings of the treasury, archive, magistrate and court.

Cheboksary is actively developing as a sports city. The capital of Chuvashia is known for its efforts to encourage a healthy lifestyle among its citizens. There is a diverse sports infrastructure: stadiums, gyms, swimming pools and playgrounds. And of course, large-scale sports events are regularly held. Local authorities give priority to supporting sports and creating conditions for the health of citizens, which contributes to the formation of a happy society.
